Federal Extension Service	-	J. L. Boatman, Chief, Division of Subject Matter H. W. Gilbertson, Principal Agriculturist Miss Grace E. Frysinger, Senior Home Economist Karl Knaus, Field Agent

4-H SECTION

MONDAY FORENOON, JULY 24

10 - 12 General Session of All Groups

MONDAY AFTERNOON, JULY 24

Conference Room Number _____, Continuation Center

Topic: Cooperative 4-H Studies

Presiding: H. E. Rilling, North Dakota

1:30 Greetings - And Plans for the Conference

T. A. Erickson, Minnesota

1:45 The Development of Plans for the Iowa-Nebraska-North Dakota-
South Dakota Study.

H. M. Jones, South Dakota, Chairman

2:00 Progress and Field Work Done to Date in the Kansas-Minnesota-
Missouri-Wisconsin Study.

M. H. Coe, Kansas, Chairman

Kansas - (7-minute report from each State)

Minnesota

Missouri

Wisconsin

2:30 Changes Made in 4-H Programs as a Result of the Illinois-Indiana-
Michigan-Ohio Study

W. H. Palmer, Ohio, Chairman

Illinois - (15-minute report from each State)

Indiana

Michigan

Ohio

3:30 Discussion and Summary.

Barnard D. Joy, U. S. Department of Agriculture

6:15 Conference Dinner

WHO'S WHO
AMONG THE 4-H STAFF

Illinois	-	E. I. Pilchard, Mary McKee R. G. Benbow Florence E. Kimmelshue F. H. Mynard Mildred M. Read	Michigan	-	Dola R. Green P. G. Lundin Marcella M. Meyer Nevels Pearson C. A. Rood

TUESDAY FORENOON, JULY 25

Conference Room Number _____, Continuation Center

Topic: Evaluating the 4-H Program

Presiding: W. H. Palmer, Ohio

- 9:00 Progress in Evaluation in 4-H Club Work
Dr. F. P. Frutchey, U. S. Dept. of Agriculture
- 10:00 General Discussion
- 10:30 Evaluation in Terms of Future Developments
Miss Gertrude L. Warren, U. S. Dept. of Agriculture
- 11:00 1914-39 - Twenty-five Years of 4-H Experience as a Basis for our
Vision of 4-H Twenty-five Years Ahead.
Dr. C. B. Smith

TUESDAY AFTERNOON, JULY 25

Joint Group Meetings

- 1:30 Room _____, Women of 4-H Group and Nutrition Specialists
Presiding: Miss Gertrude L. Warren
- Summary of Survey on Organization of 4-H Foods and Nutrition Program
in the Central States
Miss Miriam Birdseye, U. S. Dept. of Agriculture
- Accomplishments and Next Steps in Subject Matter Helps for Leaders
of 4-H Food and Nutrition Projects.
Miss Grace Rowntree, Wisconsin
- Aims, Accomplishments and Possible Next Steps in Making the 4-H
Health Activity a Constructive Permanent Influence in Building
Health Attitudes and Practices in the 4-H Club Membership.
Miss Helen Church, Missouri
Miss Nelle E. Thompson, Iowa
- 1:30 Room _____, Men of 4-H Group and Marketing Specialists
Presiding: C. W. Hammans, Ohio.
- The Place of Marketing in 4-H Club Work from the Point of View
of a 4-H Club Supervisor.
Harry F. Ainsworth, Indiana
- Marketing Subject Matter and Methods Adapted to 4-H Club Work
C. E. Dominy, Kansas

4:00-6:00 Auto tour for all groups to visit:

- (1) The New \$510,000 4-H Club Building on the State Fair
Grounds, St. Paul
- (2) College of Agriculture at University Farm, St. Paul.

WEDNESDAY FORENOON, JULY 26

Conference Room Number _____, Continuation Center

Topic: Evaluating the 4-H Program

Presiding: Mrs. Edith Barker, Iowa

- 9:00 Techniques of Evaluation in 4-H Club Work
 Dr. F. P. Frutchey, U. S. Dept. of Agr.
- 10:00 General Discussion
- 10:30 The Psychology of Dealing with Youth
 Dr. G. Gilbert Wrenn, Professor of Educational
 Psychology, University of Minn. (American Youth
 Commission).
- 11:00 Building 4-H Into the County and State Extension Programs
 Director R. J. Baldwin, Michigan

WEDNESDAY AFTERNOON, JULY 26

Conference Room Number _____, Continuation Center

Topic: 4-H Plans and Programs

Presiding: T. L. Bewick, Wisconsin

- 1:30 Report: The State Leaders' Conference at the 1939 National
 4-H Club Camp.
 L. I. Frisbie, Nebraska
- Report: The Continuing Committee of State Club Leaders on the
 Future of 4-H Club Work.
 T. A. Erickson, Minnesota
- Report: The 4-H Division of the 1939 National Dairy Show.
 E. I. Pilchard, Illinois
- The 4-H Division of the Youth Program at World's Poultry Congress.
 R. A. Turner, U. S. Dept. of Agriculture
- Plans for 1940 Sectional Conferences.
- Adjournment

CONFERENCE PROGRAM COMMITTEE:

H. E. Rilling - North Dakota
 Mrs. Edith Barker - Iowa
 W. H. Palmer - Ohio
 R. A. Turner - U. S. Dept. of Agriculture

MARKETING SECTION

MONDAY FORENOON, JULY 24
Auditorium, Continuation Center

10 - 12 General Session of all groups

MONDAY AFTERNOON, JULY 24
Room No. _____, Continuation Center

Presiding: R. V. Gunn, Acting Head, Dept. of Agricultural
Economics, Michigan

- 1:15 Economic Criteria Basic to Extension Work in Marketing.
 O. B. Jesness, Chief, Division of Agricultural
 Economics, Minnesota
- 2:00 Discussion: H. B. Price, Head, Dept. of Markets and Rural
 Finance, Kentucky
- 2:30 General Discussion
- 3:00 Essentials for Pacemaking Cooperatives.
 T. G. Stitts, Chief, Cooperative Research and Service
 Division, F. C. A.
- 3:30 Relation Between Extension Work in Marketing and Field Activities
 of Governmental, Quasi-Governmental, and Large Scale Coopera-
 tive Organizations.
 A. M. Eberle, Director of Extension, South Dakota
- 4:00 General discussion led by: L. J. Norton, Chief, in Agr. Marketing,
 Illinois
 Gifford Patch, Ext. Agr'l Economist,
 Michigan
- 6:15 Conference Dinner
- Address: C. H. Bailey, Assistant Director,
 Agricultural Experiment Station, Minnesota

Entertainment - Ukrainian Singers

C. W. Hammans, Ohio
C. E. Dominy, Kansas

NUTRITION SECTION

MONDAY FORENOON, JULY 24

10 - 12 GENERAL SESSION - ALL GROUPS

12:15 Nutrition Section Luncheon
Grace E. Frysinger, U. S. Department of Agriculture, Presiding
Introductions.
Welcome to Minnesota. Julia O. Newton, State Home Demonstration
Leader.
Plans for the conference. Florence Imlay, Section Chairman.

MONDAY AFTERNOON, JULY 24
Florence Imlay, Presiding

1:30 Question hour with Dr. Tressler.
Delegates are asked to present their questions
in writing to Section Chairman at close of
morning session.

2:45 Current projects of the Bureau of Home Economics which bear
on foods and nutrition problems in the Central
States.
Esther Peterson Daniel, Associate Chemist,
Bureau of Home Economics, U. S. Department of
Agriculture.

Questions.

3:45 Each State will have 3 minutes to introduce its own exhibits.

4:30 Adjournment.

Dear Central States Nutritionists:

In connection with the discussion on Successful Family Living on
Tuesday morning, July 25, we are sending you with Mrs. Lydia Ann Lynde's
permission, her tentative analysis of the characteristics of -

GOOD FAMILY LIFE

Assuming:

1) That the rearing of children is one of the functions of the family

- 2) That good physical development, training in wholesome living habits, and sane attitude toward life can be achieved by using the experiences of daily farm family life
- 3) That the school, the church, and other community experiences are important in the child's development but that the trend of their influence is determined by the pattern of family life and the interpretation put upon these experiences
- 4) That (2) and (3) require well organized family life wherein each member has adequate status and opportunity to develop as an individual in a social group
- 5) That after the children have left the home there is still need to maintain and develop common interests between the life-partners, to make enjoyable and stimulating meal-time contacts, and to practice a simple, gracious hospitality that brings new and old friends into the home -

Family Life is Good:

- 1) When each individual feels himself an important member of the family, with his own place, his interests and rights recognized and his work appreciated.
- 2) When each person is aware of the general wholesome affectional relationships in his family and feels that he is wanted, loved and appreciated by them.
- 3) When each person feels that his individual friendships are valued and encouraged.
- 4) When each one has opportunity and encouragement in developing his best abilities, his creative talents, and his own ideas.
- 5) When each one has a widening field of experience sufficient to make him feel master of himself and his situation.
- 6) When each one has sufficient food, clothing, shelter and comfort that he may have health and good physical development.
- 7) When there is a common goal toward which each one is putting his share of effort and from which he receives his share of benefit.
- 8) When there is a spirit of fellowship and unity fostered by family play, hospitality, work and tradition.

TUESDAY FORENOON, JULY 25
Inez Hobart, Minnesota, Presiding

9:00 Successful family living -- how are we progressing toward this major goal of the extension program?
Grace E. Frysinger, U. S. Dept. Agr.

9:15 What contributions can the foods and nutrition program make toward successful family living?

2-minute contributions, followed by 3-minute discussion:

Sparing cash income through --

Home food production and preservation

Home manufacture of foods (bread, cheese, etc.)

Better buying

Wisconsin

Missouri

Nebraska

Increasing cash income through --

Standardizing products for sale

South Dakota

Promoting good growth and health of family members

Illinois

Making family meal-times happy

Iowa

Entertaining at home

Ohio

Developing individuals

Michigan

Building better family relationships

Kentucky

Increasing understanding between neighbors

(North Dakota
(Indiana)

10:15 Intermission.

10:30 Constructive results from cooperation with other agencies to reach common nutrition and health goals --

Introduced by 5-minute talks on:

A State nutrition council

Minnesota

State and county nutrition committees

South Dakota

A 10-year cooperative county nutrition and health program

Kansas

A 10-year cooperative county school lunch program

Kentucky

Relaying information to low-income families through Farm Security workers

Iowa

The extent of this opportunity in the Central States

Elizabeth A.
Rivers, Chief,
Home Mgt.,
Region II, FSA

12:00 Recess for luncheon.

TUESDAY AFTERNOON JULY 25

Joint session with women of 4-H Club group -

Gertrude L. Warren, presiding.

- 1:30 Summary of survey on organization of 4-H foods and nutrition program in the Central States -
Presented by Miriam Birdseye, U. S. Dept. Agr.
- 1:45 Helping leaders of 4-H foods and nutrition projects with subject-matter and approach.
8-minute papers by Grace Rowntree, Wisconsin
Amy E. Erickson, N. Dak.
- 2:45 Intermission.
- 3:00 Aims, accomplishments and possible next steps in making the 4-H health activity a constructive permanent influence in building health attitudes and practices in the 4-H Club membership -
8-minute papers by Helen Church, Missouri
Nelle E. Thompson, Iowa
- 3:45 Study of Exhibits.
- 4:30 Adjournment.

TUESDAY EVENING JULY 25

Dinner with State home demonstration leader and State specialists, Dean of School of Home Economics, and members of resident nutrition staff.

WEDNESDAY MORNING JULY 26

Topic: Better Living From the Farm
Presiding: Ruth B. Cessna, Iowa

- 9:00 The freezer locker situation in the Central States today and what extension workers are doing to guide it: Summary of a recent questionnaire to extension nutritionists -
Gertrude Allen, Kansas.
- 9:15 Discussion: Problems, methods, next steps desirable in guiding the freezer locker movement.

WEDNESDAY MORNING JULY 26 (continued)

10:00 Better nutrition in the Central States through a better planned food supply tailored to local possibilities.
Discussion led by Miriam Birdseye, U. S. Dept. Agr.

Suggested questions:

What are the food groups most frequently neglected or used to excess in rural families in my State; evidences of significant health defects attributable to improper diet; improvements in food habits most important to work for. Are these situations general or more or less localized?

Are there differences in the dietary levels attainable by major income groups in different rural areas of my State?

What factors contribute to this situation, as for example, climate, soil productivity, cultivable acreage, farm population per acre, net cash income per person, debt load, type-of-farming enterprise, attitudes toward commercial farming, farm tenure, frequent moving, housing, kitchen equipment, storage facilities, national food customs?

Are there areas in my State where it would be desirable to modify one of the 4 diet patterns suggested in B.H.E. Diets to Fit the Family Income, by increasing certain locally abundant foods and decreasing others less readily available?

Are such problem areas of problem income groups being studied by a group of extension specialists in production, distribution, economics and home economics, with a view to giving local agricultural planning committees far-sighted counsel in working out a long-time program for a more vigorous and prosperous rural population supported by a more adequate diet? Are they being recognized as a responsibility of the whole Extension Service, not merely of the "women's program"?

Granted that it is important for the men of the family to understand the connection between diet and health, and give intelligent cooperation in shaping food habits and planning for an adequate and balanced food supply obtainable for a minimum of cash expenditure: What progress are we making in interesting men in the parallels between human and animal nutrition and in providing diets adequate for health?

What progress are the people of my State making with:
Adequate food preservation budgets and better storage facilities?
Preparing and carrying out yearly farm food supply plans?

Are a limited number of result demonstrations supported by records a necessary factor in a better farm food supply program? What progress with such result demonstrations? What are the next steps?

WEDNESDAY AFTERNOON JULY 26

Topic: Measuring progress in the foods and nutrition program.

Presiding: Gertrude E. Allen, Kansas.

1:30 Discussion - led by Dr. F. P. Frutchey, Senior Educational Analyst,
Extension Service, U. S.
Dept. Agr.

Situation:

The foods and nutrition program is shaped to achieve results:

- a. In the lives of rural people, in terms of information, skills, attitudes, health, family cooperation, acquiring or altering material possessions, community facilities and community activities;
- b. Within the extension organization, in terms of common objectives and well-coordinated programs;
- c. Between the Extension Service and other agencies pursuing nutrition goals, in terms of understanding, harmonious relations, and cooperative activities toward mutual goals.

Suggested discussion questions:

- Why measure the results of the foods and nutrition program?
- What results of the program are being measured at the present time?
- What other results of the program are important to measure?
- Upon whom are the effects to be measured?
- What difficulties are involved in measuring the results?
- What methods are being used at present to measure?
- What methods can be developed to measure other effects of the program?

3:30 Summary of conference.

4:00 Adjournment.

MEMORANDUM FOR THE PRESIDENT

Subject: Proposed program for the study and collection of data

Reference: Executive Order No. 11651, dated 10/10/68

1. The proposed program is designed to provide the President with the information necessary to make informed decisions on the collection and study of data.

II. Objectives

The study and collection program is designed to achieve the following objectives:

a. To provide the President with the information necessary to make informed decisions on the collection and study of data.

b. To provide the President with the information necessary to make informed decisions on the collection and study of data.

c. To provide the President with the information necessary to make informed decisions on the collection and study of data.

III. Proposed Program

The proposed program is designed to provide the President with the information necessary to make informed decisions on the collection and study of data.

That study is of the data and information necessary to make informed decisions on the collection and study of data.

That study is of the data and information necessary to make informed decisions on the collection and study of data.

That study is of the data and information necessary to make informed decisions on the collection and study of data.

That study is of the data and information necessary to make informed decisions on the collection and study of data.

That study is of the data and information necessary to make informed decisions on the collection and study of data.

That study is of the data and information necessary to make informed decisions on the collection and study of data.

Respectfully,

Director of the Office of Management and Organization

Enclosure
